Population Wellbeing Portal

A central location for e-Learning to deliver improvements in public health, prevention and wellbeing

Population Wellbeing Portal goes live

Health Education England (HEE) has worked with Public Health England (PHE), the Academy for Public Health for London and Kent, Surrey and Sussex and the Faculty of Public Health to develop the Population Wellbeing Portal.

The Portal offers free e-learning resources, training and education in population health, wellbeing and prevention. The Portal provides a central location for free training and education resources relating to the health and wellbeing of the public including links to e-learning, toolkits, videos, webinars and various publications. Whatever your involvement with the public, these resources will support you in expanding your knowledge and skills to enable you to influence the health of the population.

The Population Wellbeing Portal brings together material from multiple sources. This includes resources from HEE, PHE, the Academy for Public Health for London and Kent, Surrey and Sussex, the Faculty of Public Health and many others. It links with *All Our Health*, PHE's framework of evidence to guide healthcare professionals in preventing illness, protecting health and promoting wellbeing.

For all enquiries regarding the portal please email php@hee.nhs.uk

For more information about the Portal visit: <https://www.e-lfh.org.uk/programmes/population-wellbeing-portal/>
